Dear Sir:

Our engineering group has been surveying oil spill potentials at all of Chevron Chemical's plants and assisting in the preparation of SPCC Plans. At all plants which store major volumes of oil, SPCC Plans are essentially complete and will be in final form by July 10, 1974. However, owing to an unexpected heavy work load and illness in the group, we have been delayed in the completion of a plan for our plant in Region II at South Plainfield, New Jersey.

We would appreciate an extension of time to complete the SPCC Plan for the aforementioned plant. We expect the plan to be completed by September 1, 1974, and will attempt completion at an earlier date. Please advise if this does not meet with your approval.

Very truly yours,

J. Blickman
